Sri Lanka	To be negotiated	To be negotiated. Please take into consideration that the average family income may be as little as \$50 US a month.
Sweden	25	3,500 SEK per month
Switzerland	30	700 swiss francs per month
United Kingdom	25+	55 pounds per week
USA	45	US \$195.75 per week

Should an au pair work more than the hours they have negotiated in their agreement, they should be compensated accordingly with either extra days off or extra pocket money.

We recommend taking (for example) school holidays into consideration and how you would provide appropriate compensation. This should be discussed with your au pair prior to their arrival in your family and included in your agreement. Please remember that in some countries, strict guidelines limit the number of hours an au pair can work.
